Low environmental impact integrated pest control as a replacement for systemic pesticides and chemical fertilizers. We perform minimal hedging.

Delicate crushing employing a selection of the softest pressings. Static settling of the must at a low temperature. Fermentation takes place in stainless steel at a controlled temperature of 18° C. After two rackings the wine matures in stainless steel.

Slightly sweet, pleasingly bitterish, with hints of fruit and wild flowers. Light, fresh and easy-drinking.

Prosecco sparkling wine is perfect served as an aperitif, and also goes well with pasta or rice dishes.
